The sketch of the design submitted by J. K. Taylor, the Supervising Architect of the Treasury and to Curator True, calls for pools of water and all kinds of trees and shrubbery, with running water and fountains. The subject of the paper is "The Water Resources of Molokai, Hawaiian Islands." Of especial interest are Mr. Lindgren's notes on the gradual decrease of the forested area, the probable effect of grazing, and intimate relations of these to the available water supply. The problems of water conservation are, in many respects, similar to those of the arid West, the solution being found in combined systems of storage, the construction of wells, collecting tunnels, and the economical employment of various devices for lifting water.

## MADE \$4,000,000 BY SALE TO STEEL TRUST

Mr. Stevenson Had Invested Only \$1,000,000 in the Sharon Company.

SHARON, Pa., March 11.—John Stevenson, Jr., vice president and general manager of the Sharon Steel Company, cleared \$4,000,000 through the sale of the Sharon Company's property to the United States Steel Corporation. Three years ago Mr. Stevenson came to Sharon and helped organize the steel company. He invested about \$1,000,000. The Steel Corporation has just acquired possession of the local works, and Mr. Stevenson realized \$5,000,000 from the transaction. When Mr. Stevenson went to Newcastle, about twenty years ago, he was worth \$20,000. He and other capitalists built a steel mill, which the Steel Corporation bought, and he received \$1,000,000. By these two sales he has amassed a large fortune.

## ANNUAL REPORT OF EPISCOPAL HOSPITAL

Present Building Outgrown and New Quarters Urgently Needed.

The sixth annual report of the Episcopal Eye and Ear Hospital shows that since its doors were opened six years ago, 51,911 visits have been made to it by 11,076 patients, and 2,672 operations have been performed. The present building, however, has been outgrown. Beds and cots are in every available corner, and patients are turned away each day.

Citizens of Washington have contributed \$14,000 toward the erection of a new building, but this cannot be erected until \$11,000 more has been subscribed. The new hospital will be probably built on Fifteenth Street, near M Street northwest.

There have been changes in the personnel of the board of lady managers. Eight of these have resigned and one has died, eleven members have been added, making a total of ninety-seven now on the roll. The report of the committee on finance shows that the revenue of 1902 from pay patients was \$3,500, averaging almost \$200 per month.

## VATICAN PLEASED WITH ARCHBISHOP GUIDI

Delegate in Philippines Has Checked Dissident Movement.

ROME, March 11.—Another report from Archbishop Guidi, the apostolic delegate in the Philippines, has just been received at the Vatican. It gives a fuller account of the religious condition of the islands. The schism started by "Bishop" Aglipay, the leader of the Independent Catholic Church in the Philippines, seems to be graver than it at first appeared to be, as a strong Filipino party is raising false hopes among the natives of independence from Rome, claiming that the expulsion of the friars is indispensable in order to obtain the independence of the country. The apostate priests are fourteen in number.

It is gathered from good sources of information that the Vatican authorities are extremely satisfied with the prudent and wise, but at the same time energetic, action of Archbishop Guidi, who, with persuasion, has succeeded in checking the dissident movement.

The Pope received today with great solemnity the Duke of Norfolk and a delegation of British Catholics, who presented the Pontiff with greetings and offerings. The duke read an address, which the Pope answered expressing his appreciation. The Pontiff looked very well, considering his late illness. He said he felt quite himself again.

The following was the most important passage in the Duke of Norfolk's address:

"We cannot forget the noble series of encyclicals in which you have regulated the affairs of the Church with the kingdoms of the world while strenuously asserting that independence of the Holy See which Catholics throughout the world will never cease to claim."

## SHOPPER FORGOT PURSE WITH \$5,000

Left It Lying on a Chair in a Quaker City Store.

PHILADELPHIA, March 11.—Tired out with the struggle to maintain her position in the front rank at the Monday bargain-counter in a big department store, Mrs. May Belmont, of 1708 North Sixteenth Street, retired to the waiting room to rest and recuperate. She threw herself into a luxurious easy chair, deposited her well-stuffed pocketbook on the chair next to her own and enjoyed a few minutes of repose. Then, refreshed and ready to hold her own against rivals in the shopping line, she rose and returned to the push. She was absorbed in her shopping, when she discovered that she had left her purse behind her in the waiting room.

Mrs. Belmont hurried back, but some more fortunate bargain hunter had been before her and the pocketbook with its \$5,000 was gone. Happily only \$50 of the contents was in currency. The rest was in the shape of a check for \$5,000. Mrs. Belmont rushed to the bank and stopped payment on the check, but an advertisement in the papers and went home, where she still awaits the return of her property.

Mrs. Belmont is a woman of large means and will not feel the loss of the small sum in bills. She had just returned from New Orleans where she went to see the Mardi Gras festivities, and had received the check on her arrival here from the agent who looks after her property.
